

ASS - Ref. ASS

Are you looking for an exterior urban warning sound with a 4 sound memory capacity and several choices of available sounds (ex: gong, bell) to ensure safety around a vehicle carrying people? Are you looking for reprogrammable sound equipment via an infrared port? Are you looking for an exterior urban warning sound for bus or coach approved R118 and respecting French standards (see below)? Go for the urban warning sound A.S.S! The A.S.S is an exterior urban warning sound imagined, designed and manufactured by SESALY, equipment's manufacturer specialized in designing and assembling lighting and sound signaling solutions dedicated to buses and coach comfort and security. It is made in France and complies to many French regulations and standards: ECE R118, CEM R10 03, NF 50155, NF 61373 and NF 60068-2 1/2. Different sounds like "gongs", "bells" or others are available in our database, on request. The memory capacity of 2 minutes allows 4 sounds to be stored on the PCB. The sound level of each sound and the priorities of the sounds are programmable. This exterior urban warning sound can be reprogrammed on the vehicle via an infrared port (USB-PC port). This customizable exterior sound solution offers many benefits:

- It works with an operating voltage of 12Vdc or 24Vdc.
- It requires a low consumption. For an operating voltage of 12Vdc, the consumption is 2A and for an operating voltage of 24Vdc, the consumption is 1.2A.
- Its sound power is 100 dB (+/- 10db). *
- It is easy to install owing to its angle bracket.
- This exterior urban warning sound integrates a day and night function, in order to adapt the sound level to the urban context.
- The loudspeaker waterproof rating is 56 (IP).
- As an option, a trigger control owing to a footswitch and an additional progressive sound level function can be integrated, on request.

* Depending on the version of the sound selected, the sound power varies from 90dB to 110dB at 1 meter and from 80dB to 100 dB at 7 meters.

TECHNICAL CHARACTERISTICS

Brand	SESALY
Product Type	Standard
Voltage	12V
Amperage	1,2 AMP at 24V, 2 AMP at 12V
Approval	NF EN 50155, NF EN 60068-2 1/2, NF EN 61373
Fixation	Bracket
Options, upon request	Progressive sound volume., Trigger control via a contactor.
Decibel	100 dB (+/- 10)
Main Functions	Several available sounds “gong” or “bell” in our data base .
Specific Functions	Day/night function, Possibility to integrate up to 4 sounds on the electronic board. Programming of the sound level of each sound and the priorities of the sounds at the triggering. Reprogrammable on customer site via an infrared module (USB port - PC). Memory capacity: 2 mi
IP protection	IP66
ECE	R118
Industry	Buses and Coaches
