

A1S - Ref. A1S.10

Are you looking for a mini exterior urban warning sound with 2 functions : **one warning sound (gong or bell) and a back up alarm** to ensure safety around a passenger vehicle? Are you looking for a mini exterior urban warning loudspeaker for bus and coach R118 approved? Go for A1S!

The A1S is a mini exterior urban warning sound imagined, designed and manufactured by SESALY, dedicated to buses and coach comfort and security. It is made in France and complies with **CEM R10 03** regulations (electromagnetic compatibility) as well as **ECE R118 regulations** (smoke fires).

This sound solution is characterized by the fact that it consists a loudspeaker with 2 warning sounds. Indeed, it integrates sound as well as a back-up alarm function. The back-up alarm takes priority in the sound order (gong or bell). Please note, this product can't be reprogrammed.

This customizable mini outdoor urban warning device has many advantages:

- The sound is less than 2 seconds.
- It works with an operating voltage of 12Vdc or 24Vdc.
- It requires a low consumption. For an operating voltage of 12Vdc, the consumption is 2A and for an operating voltage of 24Vdc, the consumption is 1.2A.
- Its sound power reaches 100 dB (+/- 10db). *
- It is equipped with a PCB with resin, therefore underproof.
- It is easy to install owing to its angle bracket.
- This buzzer has a day and night function to adapt the sound level to the urban context.
- The loudspeaker waterproof rating is IP56.

* Depending on the version of the sound selected, the sound power may vary from 80dB to 110dB at 1 meter.
