

RAD - Ref. RAD.P

Are you looking for a solution able to indicate to a bus or coach driver that a passenger required a stop request owing **a luminous repeating box installed in the dashboard environment** ? Are you looking for an R118 approved comfort lighting solution ? Choose RAD.P!

RAD.P is a stop request repeating box imagined, designed and manufactured supplied by SESALY and dedicated to comfort and safety in buses and coaches. It is made in France and complies with **ECE R118 regulations** (smoke fires).

It is closed to the dash board area and is equipped with a potentiometer which enables to change LED luminosity. There are two versions. The first has **3 LEDs which can be amber, green, blue or red**. The second has **4 red LEDs**.

This luminous solution created to provided comfort to drivers has many advantages and options available:

- It works with a operating voltage of 24Vdc (or 12Vdc, optional on request) and has a consumption of 0.02A.
- Its lifespan is over 100,000 hours *
- It is composed of a metal and black boxe. This product is resistant because it made of polycarbonate (PC).
- Optionally, on request, the color of the LEDs can be white.
- One switch can be added, on request.

Please contact our sales force for any specific request with available options for design dedicated to your vehicle.

** for a 25°C room temperature. The lighting power decreases by 30% after 100 000 hours.*

TECHNICAL CHARACTERISTICS

Brand	SESALY
Voltage	24V
